There the sound of falling waters Made sweet murmurs to the breeze, While strange golden birds were flitting Through the dark persistent trees-Then the gush of happy voices Stole upon the enraptured ear, Making strains of heavenly music Strung on harps I loved to hear.

Here and there were laughing children Sporting o'er the mossy dell, Drinking drops of pearly brightness From the crystal violet's bell, Smiling flowers of hues the brightest, Dream like, nodded to the wind, Giving to each breeze a token

In their perfume left behind.

Wildly, wildly, throbbed my bosom As I did around me gaze, While strange thoughts stole o'er my spirit-Memories of other days. And methought each radiant feature Gazing through the starry mist,

Bore the lineaments of angels That had passed to endless bliss. As I gazed in dreamy raptures

At the land of angels bright, One fair form advanced to meet me At the gate of golden light. "Sister, come," it whispered softly, "Sister, come, delay no more-Soon thou'lt pass the stream-I wait thee On this bright, this golden shore."

"Here, my sister, all is gladness, Here no pang of grief we know-Once the dreaded ordeal over Joys unbounded overflow. Here is never heard the wailing Of the widow, wild with care, Or the famished orphan, calling For a bite in sad despair.

But our Father kindly watching, Tends our every want and pain, All our little gricfs assuages-Smiles and joys here only reign. Then come, my sister, I now greet thee, At the glorious gate of light, And with choral strains will lead thee Through this land supremely bright."

As that voice of thrilling power, Murmuring, died upon the breeze, Woke within my spirit, longings To unite my soul with thee-But the mystic spell was broken-Linked was I to earth again-Though my spirit dream was shattered Yet it lingers on my brain.

Now I oft, as evening shadows Flit across the hills of blue. Dream of heaven as in that hour When my life to me was new, And 'tissweet, although I waken To a life beset with snares, Yet to know that bliss immortal Dwells beyond this world of cares.

Letters from Rome state that the Pope is threatened with dropsy, and that the state of his health gives great uncosiness to his physicians. Hitherto, every effort has been made to conceal his danger from the public. It is said that in the event of his disease proving fatal, he will be succceded by Cardinal Wiseman.

The French government is about to make the Pope pay for the military protection they afford Austria charges sixteen thousand pounds a month, with occasional extras, running into hundreds of thousands. The French military police think they are as much entitled to pay as the Austrians, and they intend to present a bill which in Congress on account of ill health. will leave the Pope's purse rather empty.

Upward of a thousand men are now at work in the construction of the Pittsburg and Steubenville railroad. The directors have concentrated their working force upon all the heavy parts of the line, leaving to a later period the lightersections, so that the whole road may be finished at one time, which period has been fixed at a year from the coming winter. At that time the whole line of the Steubenville and Indiana Railroad will also, it is said, be completed, as well as the mountain division of the Pennsylvania Railroad. These roads, with their western extensions, will form a continuous line of railway from Philadelphia to lars. The Indian appropriation bill has also

Then a dry, hack-ing cough will set in, and when you raise anyoms will increase, and you will soon have hectic fever, cold chills, night sweats, copious expecto ation, and then great prestration. If you still neglect yourself, a few weeks or months will see you consigned to the grave, leaving your friends to to be entertained that a more important crop—the mourn how rapidly consumption vid its work, and wheat—will be attacked by a like disease, as there hurried you away. Friend! have you no cause to be alarmed? In the above sketch you may see as in a glass, how every ease of consumption progresses, with more or less rapidity, to a fatal termination. Of all the thousands and millions whom this great Destroyer has gathered to the nb, every single case began with a cold! If this had been attended to, all might have been well; but, being neglected, under the fatal delusion cert that it would "wear itself off," it transferred its deadly action to the substance of the lungs, exand another cold added fuel to the flame, until these tubercles began to soften and suppurate, leaving, by their ulceration, great cavities in the tungs. At this crisis, the disease is very difficult of cure, and oftentimes sets at defiance all human

A Derangement of the Nervous System. (G) in NERVOUS COMPLAINTS Drugs and Medicines were as 'a discase, for filey weaken the vital energies of the already prostrated system; while under the strengthening iffegries, vitalizing influence of G-lyanism as apply d by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, strength visaticity and vigor.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives, consists in the fact that they arrest and cure disease by sut-ward application, in place of the usual mode of dragging and cheicking the patient, till exhausted. Nature staks in pelessly

The strengthen the whole system, equalize the circulation of the blood, promote the secretions, and mover do the slightest injury under any circumstances. Since their introduction in the United States, only three years since, more than 75,000 Persons

meluding all ages, classes and conditions, among which were large number of ladies, who are peculiarly subject to Nerv pus Complaints, have been ENTIRELY AND PERMANENTLY OURED, ENTIRALY AND PERMANENTLY CORED, when all hope of relief had been given up, and e.ery thing else been tried in vain?

To illustrate the one of the GALVANIC BELT, suppose the case of a person affliced with that bane of a variation, DYSFE'SIA, or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken which, by their action on the nervous and murcles of the stomach afford tenurean relief, but which leave the patient in a lower state, and with in jured faculties, after the action thus excited has ceased New commare this with the offert resulting from the application of Jured faculties, after the action thus excited has ceased Now Compare his with the edget resulting from the application of the GALVANIC BELT. Ask a Dyspetite sufferer, even in the worse symptoms of an attack, and simple tie the cell tround the body, using the Magnetic Flund at directed. In a short period the meensible perapiration will act on the positive element of the Belt, thereby causing a Gal-anic circulation which will past on to the creative, and thence such again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of DYSPEPSIA are PERMANEATLY CURED. A FEW DAVS 18 OFTEN AMPLY SUFFICIENT TO FRADICATE THE DISEASE OF YEARS.

of New Jersey, of distinguished attainments and exsited re-Soner, New Jersey, July 12, 1848.
Dr. A. H. Christie-Dear Sir: You wish to know of n that has been the result in my own case, of the application if THE GALVANIC BELT AND NECKLAGE. My reply is

what has been the result in my own case, of the application of THE GALVANIC BELT AND NECKLAGE. My cepty is as follows:

For about twenty years I had been suffering from Dyspepsia. Every year the symptoms become worse, nor could to be inin permanent relief from any course of medical treatment whatever. About fourtern years since, in consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumstian, which for year after year, caused me indescribable anguish. Farther: in the winer of 45 and 46, in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronch, its, which soon became so severe as to require an immediate suspension of my pastoral labors. My, necessary years was now thereoney by greatrated, and as my Brunchitis became worse, so also did my Dyspepsia and Rheumatic effection—thus evincing that these disorders were connected with each other "Arough the medium of the Nervous system. In the whole phas macoposis there seemed to be no remedial agent what could reach and recuperate my Nervous System as hing that I had tried for this purpose had completely faste. At last I was led by my frients to examine your inventions, and (though with no very sanguine hopes of their efficiency, I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID. This was in June, 1846. To MY CARGE ASTORMENT, IN TWO DATS MY DESPERSA HAD GONE; IN EIGHT DATS I WAS EMBALED TO RESUME MY PASTORAL LABORA; NOR HAFFER I WAS EXPERIENT OF ASTORD TO RESUME MY PASTORAL LABORA; NOR HAFFER IT WAS EXPERIENT OF ASTORD TO RESUME MY PASTORAL LABORA; NOR HAFFER IT WAS EXCENTED TO RESUME MY PASTORAL LABORA; NOR HAFFER I WAS EXPERIENT OF ASTORD TO RESUME MY PASTORAL LABORA; NOR HAFFER I WAS EXPERIENT OF ASTORD TO RESUME MY PASTORAL LABORA; NOR HAFFER I WAS EXPERIENT OF ASTORD TO RESUME MY PASTORAL LABORA; NOR HAFFER ASTORD TO RESUME MY PASTORAL LABORA; NOR HAFFER ASTORD TO RESU sults of the experiment.

I have recommended the BELT and FLUID to many what have been likewise suffering from Neuralgie affections. They have tried them, with HAPPY RESULTS, I SELIEVS, IN SYENY

I am, dear sir, very respectfully yours, ROBERT W. LANDIS. DR. CHRISTIE'S GALVANIC NECKLACE is used for all complaints affecting the Throat or Head such as Bronchitis. Inflammation of the Throat, Nervous and Sick Headache. Dizziness of the Head Neuralgia in the Face Bur-ting or Roaring in the Ears, Deafness, which is generally Nervous, and that distressing complaint, called Tio Boloreuz

Palsy and Paralysis. All physicians acknowledge that these tarrible onesses are caused by a deficiency of Nervous Energy in the affected limbs. Da. Gransve's Galvanic Articles will supply this deficient power, and a complete and entire cure is the effected.

Severe Deafness Cured.

fig- Every case of Deafness, if it be Nervous, as it generally a, can be cured by this wonderful remedy. DR. CHRISTIE'S GALVANIC BRACELETS

Are found of vast service in cases of Couvulsions or Fits Spasmodic Complaints, and general Nervous Affections of the Head and upper extremities.
